GOING WEST.

OFFICE OF THE DAILY APPRAL, | Mamphis, January 6, 1871. \$30,000,000 OF THE PUBLIC DEST TO BE 5-20 Bonds of 1884 .. West, through Republican Congressmen 10 49 Bonds. and other criticials, against the bond-pur-chasing, gold-seiling, and debt-paying policy of the Secretary of the Treasury, The bope has been expressed by some of them that the new year would witness a change, but it will be found baseless. It is learned that Mr. Boutwell proposes to go alead and fulfil, if possible, the proposition of his annual report to make the resent generation pay off, through bur-densome taxation, nity millions more of he public debt in the next liscal year. One of the most pertinent inquiries, among others, of the condition of the reasury, which is made not only from the West, but from all portions of the close they we country, is that calling for information a decline; regarding the extraordinary currency (Canton balance now in the Treasury. On the last day of 186) the coin balance was, in even umbers, \$70,000,000, and the currency balance but \$5,000,000. Yesterday the currency balance was \$21,000,000, and the oin balance \$80,000,000, showing an in-reased currency balance of \$10,000,000. The policy for January Island to-day, is buy \$6 000,000 of bonds and sell \$4 000,-000 of coin, but the polley of this extrac dinary currency belance is explained by

law without resorting to extraordinary on as follows: means. Thus secundation, which lie Ordinary...... Secretary now insists is an absolute meas. Good Ordinary ure of safety, has not affected unfavorably the financial condition of the country, but has enabled the Tressury to keep | Middlings... on a safe footing to meet the deficiency Strict Middlings...... reduction, is is alleged at the department, may exceed the estimate made in Congrees. The reduced receipts from cus-toms, for instance, it is believed will reach forty millions, being from five to seven millions to excess of the estimate made when the law was passed. There is about the same amount of reduction in internal taxation. The necessity for the arge currency balance has thus been generally explained by the Secretary, but a few figures will make it clearer. Of the few nightes with the second state of additional few nillions of authorized additional have bank note circulation thirty millions have Memphis and Charleston R. R. been applied for from the South and West, files a millions of which will prob-ably be granted and four millions of which has already been issued. As fast as this bank circuistion is issued the Secetary is compelled to redeem the certificates in gresubscks, and therefore nices a good currency balance on hand for an emergency, for at the rate the ap-plications come in five or six millions of rency may be required in a few days. But the true condition of the coin balance teeds explanation. Yesterday, as stated, it was eighty millions. To morrow, how-ever, it will be reduced to \$48,000,000 by the payment of \$82,000,000 of soin, in 105,000 of coin in the Treesury, for there are \$10,000,000 of uncalled for, but accrued interest, which the Secretary may be required to pay out at a day's notice. Thus, Objects of the policy. He says that he common the problem of the policy. He says that he remained to the policy and the policy. He says that he remained to the policy of the policy of the policy. He says that he stated in December, that the estimated expenditures for the next the estim

day after its receipt in which to make presentment, and that therefore the payce of a check was not guilty of neglect in a check was not guilty of neglect in a tyresenting the check on the day of us receipt at the bank which suspended on the fext day. The Court also decided that the giving of a check is not payment unless of a check is not payment two more of mild weather will make a great change for the better. The markets rule much the same, and efforts made to form in order generally fall, as the date. of a check was not gullty of neglect

The Jackson (Miss.) Pilot says: State cortificates of indebtedness are now received at par by all desiers in merchandise, and others who have occasion and opportunity to receive money, throughout he Niste. The credit of Mississippi seems to be better than it was when, unter other circumstances, and a different political administration, its credit was some, and efforts made to force up priots generally fall, as the demand is light for all things. There is illicate or no call for feed except from the local trade, and the stock on hand, though light, seems to be ample.

LE ADD BELLE LEE

Will issue Mustally Inc. Suffix made to force up priots generally fall, as the demand is light for all things. There is illicate or no call for feed except from the local trade, and the stock on hand, though light, seems to be ample.

A PEC GOODS BANK IN NEW YORK. We learn, says the New York Bulletin, that the efforts of some of our prominent dry goods merchants to establish a bankng organization, to be controlled wholly by men active y engaged in the trade, are likely to be successful. The proposition to establish such an institution, though but very recently projected, has already most with such popular favor, that is managers hope to dispose of all the stock CONTRE—Common to choice Rio, 16g20c.
